

FLEA AND CRAWLING INSECT SPRAY

- 15% VOC Water-Based Formulation
- Provides residual and (quick) contact kill of the following insect pests:

Kills: Ants, Cockroaches (American Cockroach, Asian Cockroach, Brown-Banded Cockroach, German Cockroach, Oriental Cockroach, Palmetto bugs, Turkestan Cockroach, Waterbugs), Crickets, Centipedes, Carpet Beetles, Firebrats, Fleas, Pillbugs, Silverfish, Spiders, Scorpions, House Spiders, Black Widows, Sowbugs, Ticks

- Controls Fleas for Seven Months
- Controls Cockroaches for Four Months
- Breaks the Life Cycle of Roaches and Fleas
- Prevents Development of Biting and Reproducing Fleas
- Prevents Development of Reproducing Roaches

For Indoor Use Only In: Apartments, Atriums, Attics, Automobiles, Basements, Bathrooms, Boats, Bookcases, Cabins, Campers, Chests, Closets, Condominiums, Credenzas, Crematoriums, Day Care Centers, Dens, Dressers, Dumpsters, Floors, Furniture, Garages, Garbage Cans, Kitchen(s), Living Rooms, Mobile Canteens, Mobile Homes, Office Buildings, Pet Areas (Dog Houses, Kennels, Pet Bedding, Pet Carriers, Pet Grooming Areas, Pet Sleeping Areas, Pet Stores, Veterinary Offices), Play Rooms, Porches (enclosed), Prisons, Public Buildings, Quonset huts, Railroad Cars, Recreation Vehicles, Ships, Solariums, Sun Rooms (enclosed), Trailers, Trucks, Utility Rooms [and non-food areas of Cafeterias, Dormitories, Drug Stores, Food Processing Facilities, Hospitals, Hotels, Indoor Eating Establishments, Nursing Homes, Restaurants, Schools, Institutions, Jails and Mess Halls, Supermarkets, Taverns, and Theaters], Factories, Funeral Parlors, Locker Rooms, Mausoleums, Morgues, Mortuaries, Stadiums, Storage Areas, and Washrooms.

This product contains a combination of ingredients to provide rapid knockdown and kill of the listed pests as well as an insect growth regulator which prevents immature cockroaches and fleas that are sprayed or that contact the insecticide residue from becoming adults. By preventing the development of adult cockroaches and fleas, the life cycle is broken so reproduction cannot occur. In the case of fleas, biting adult fleas will not result from treated immature fleas and the reproductive life cycle is broken. Treatment will last for 210 days for fleas and 120 days for cockroaches.

Contains no CFCs or Other Ozone Depleting Substances. Federal Regulations Prohibit CFC Propellants in Aerosols.

EPA Reg. No. 279-3425 EPA Est. No. 11623-GA-1

ACTIVE INGREDIENTS:

Pyrethrins	0.05%
Permethrin [(3-Phenoxyphenyl) (1RS)-cis-trans-3-(2,2-Dichloroethyl) 2,2-dimethyl-cyclopropanecarboxylate).....	0.20%
**N-Octyl bicycloheptene dicarboximide....	0.25%
2-[1-Methyl-2-(4-phenoxyphenoxy)ethoxy] pyridine	0.02%
OTHER INGREDIENTS	99.48%
	100.00%

* Cis-trans isomers ratio: Min. 35% (+ or -) cis, Max. 65% (+ or -) trans
 ** MGK® 264, Insecticide Synergist

KEEP OUT OF REACH OF CHILDREN CAUTION

See Back Panel for Additional Precautionary Statements.

PRECAUTIONARY STATEMENTS Hazards to Humans & Domestic Animals CAUTION

Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

FIRST AID

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eyes. Call a Poison Control Center for treatment advice

If Swallowed: Immediately call a Poison Control Center or doctor. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-331-3148 for Emergency Assistance.

Personal Protective Equipment:

User must wear: long-sleeved shirt, long pants, shoes and socks.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Indoor Use Only

Read entire label and follow all label directions.

Use this product as a broadcast, spot or crack and crevice treatment to areas where pests are seen or suspected only. Treat surfaces until visibly wet. Apply to listed pests directly, whenever possible. Use Dōs at the rate of 17 oz. for up to 1,700 sq. ft. This product contains a combination of ingredients to provide rapid knockdown and kill of the listed pests as well as an insect growth regulator which prevents immature cockroaches and fleas that are sprayed or that contact the insecticide residue from becoming adults. **Shake Well Before Using**

Net Weight: 17 oz/482 g

Use Restrictions

For Indoor Use Only

Do not treat pets with this product.

Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.

Do not allow adults, children, or pets to enter the treated area until sprays have dried.

Remove pets, birds and cover fish aquariums before spraying.

Remove or cover exposed food and drinking water before application.

Do not apply directly to animals.

Do not contaminate food and feedstuffs. Remove or cover dishes, utensils, food processing equipment and food preparations surfaces or wash them thoroughly after treatment and before use.

Do not use in food handling establishments in which food is held, processed, prepared and/or served. When used in the home, cover or remove all exposed food and cooking utensils and cover all food processing surfaces and wash thoroughly after treatment and before reuse.

Do not use in aircraft.

For Fleas and Carpet Beetles:

Use Dōs Flea and Crawling Insect Spray at the rate of 17 oz. for up to 1,700 sq. ft. Thoroughly vacuum all carpeting and fabric covers, furniture, along baseboards, under furniture, low traffic areas, and areas where pets normally rest. Place vacuum bag in a separate bag and dispose of in outside trash. Launder small rugs, pet bedding, disassembled sofa cushions, and other similar fabric items before treatment. Treat infested areas by thoroughly spraying pet resting areas, infested upholstered furniture, entire floor and floor coverings with special attention to window and door frames, and cracks and crevices along baseboards where pests are suspected. Hold Dōs Flea and Crawling Insect Spray 36 inches from the surface being treated and spray downward. An area of 80-90 sq. ft. can be treated in approximately 10 seconds with Dōs Flea and Crawling Insect Spray. Treat crack and crevices in upholstered furniture where flea development occurs. **Remove and wash and replace pet bedding after insecticide has dried.**

{Non-product related instructions associated with fleas only;}

To further protect your pet and your home from continuing reinfestation by fleas, you should use an EPA registered (labeled) product to treat the animal(s) before the animal is allowed back into the house. You should also treat the area in the yard where the pet typically spends time with an EPA-registered (labeled) product specifically for yard flea control. The pet, home, and yard should be treated at the same time.

For the control of all labeled crawling insect pests (including inside of Transportation Vehicles):

Directly spot treat listed pests when they are seen. Spot treat ant trails and treat cracks and crevices and points of entry. Pay special attention to areas behind and beneath sinks, stoves, refrigerators, garbage containers, inside cabinets, along baseboards, in cracks and crevices in walls and floors, door and windowsills and frames, around drains, pipes, plumbing, bookcases, storage and utility areas, and utility installation areas. If flea and tick infested areas are transported in vehicles, use as a spot treatment to carpets and upholstered areas, paying attention to cracks and crevices.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in cool dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling: Do not Puncture or Incinerate! Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.
